

BEDFORD SCHOOL DISTRICT
103 County Road
Bedford, New Hampshire 03110

DIABETIC CHECKLIST

As we look to plan for the care / oversight of your child's diabetes for the school year, we ask that you make sure the following items are submitted to the Health office by **the first day of school**:

1. New medication orders and Diabetes Management Plan obtained from and signed by your child's doctor.
2. Glucagon Injection kit (with valid expiration date)
3. Insulin
4. Insulin pen / needles / syringes
5. Meter (with test strips)
6. Ketone test strips
7. Snacks (We suggest a supply for classroom and nurse's office)
8. Glucose tablets
9. Extra reservoir and tubing for insulin pump
10. Emergency contact information (parent and MD)

We ask that adequate supplies be kept in the Health Office throughout the year in order for us to respond appropriately to your child's hypo-/hyperglycemia condition, should one occur.

Please feel free to call with any questions or concerns during school hours.

Thank you for your cooperation...The Bedford School District Nurses
